## **AGNET Guest Wireless Access**

Complete the following step by step procedure to access the guest wireless network.

NOTE: Each access code will provide wireless <u>access for two devices</u>. The code is <u>valid for a 24-hour</u> <u>period</u> for most locations but this may vary. Please consult local IT personnel for a locations code expiration time frame. Access beyond that timeframe will require the following process be repeated after the expiration of the prior Request code.

- 1. On your cell phone, review the available Wi-Fi networks. Select the AGNET Guest network option and connect to it.
- 2. A web browser should open automatically and display the screen below. If a web browser does not open, manually open the web browser and attempt to surf the web. The screen below should be displayed.(Figure 1)
